

1. Around 71 percent of the Earth is covered in salt water. We call this major **body of water** the **Oceans**.
2. The five **major** oceans are the Pacific Ocean, the Atlantic Ocean, the Indian Ocean, the Arctic Ocean and the Southern Ocean
3. The three **stages** of a river are the upper course, the middle course and the lower **course**.
4. The **water cycle is** the path that all water follows as it moves around Earth in different **states**.
5. -SKILL BASED- I can explain why towns and cities are often built near rivers.
6. -SKILL BASED- I can describe how some places are similar and others are different in relation to their **physical features**.
