

Times Table Rock Stars

Earn coins for your Rockstar and you can personalise their avatar! The more games you play, the more coins you get!

1. Visit: [Times Tables Rock Stars: Play \(trockstars.com\)](https://trockstars.com)
2. Enter the same username and password as your Numbots account.

Please click on the 'Garage' to practise your times tables. Questions are personalised to you by the smart algorithm so Garage is the best mode for making continued improvement.

Your goal is to complete your heatmap and turn it green - that's when you know you're ready to ace it in the Studio or rock the Festivals!

Please note: Each times table is made up of 46 facts. Multiplication questions will be asked both ways around (e.g. 10×5 and 5×10) and their inverses ($50 \div 5$ and $50 \div 10$) so each table is made up of 46 facts.
