

KEA COMMUNITY PRIMARY SCHOOL

A great place to learn and make friends

Year 1 homework – Spring 1

Level 1 Homework (must be completed and handed in by the due date)

Numbots 15 minutes per week (ideally 3 minutes a day, 5x a week).

Click here for the [Numbots Parent Guide](#). The log-ins are in the back of reading records.

Reading - 5x a week (ideally for 5-10 minutes each time).

Please ensure that all reads are entered into reading records and initialled by an adult, as these will be counted on a Thursday.

For Level 1 homework, the week runs from a Friday to Wednesday.

Level 2 Homework (we would love you to have a go at completing this and share it with your class teacher)

Complete one of these tasks each week. You can choose what order you complete the tasks. Have fun!

English

In English, we are looking at RSPB Book of Birds! It would be great to see what birds you can spot at home or out and about on a walk!

Here is a link to help you identify the birds you have spotted:

<https://www.rspb.org.uk/birds-and-wildlife/a-z>

PSHE/Geography

For our KIRF in PSHE it is to know our first line of our address and for Geography we are learning about where I live – which also focuses on our addresses. It would be great if you could work on learning your home addresses and focusing on other places that are important to you and where they are located! Could you make your very own address book?

Maths

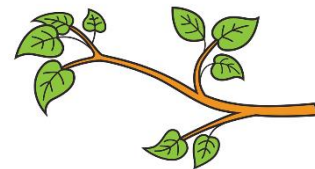

In Maths, we are looking at place value to 20. This basketball game can help you to know the value of each number depending on its position – whilst also being interactive! Click up to 19 and give it a shot and see how many you can get through the hoop!

<https://www.topmarks.co.uk/learning-to-count/place-value-basketball>

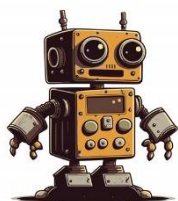

Science

In Science, we are learning all about the amazing plants around us! Watch the videos and complete activity 1 and 2!

<https://www.bbc.co.uk/bitesize/topics/zpxnyrd/articles/z2vhxbk>

Computing

In computing we are looking at programming robots - we were discussing all the different uses and jobs that robots have! I would like you to create your own robot and tell me what their job would be! Could they help you tidy your room? Play sports with you? Help cook in the kitchen? The choice is yours! This could be a drawing, a story or you could even build your own! Send me a picture on dojo of what you have created!

Art

In art we are learning about how to use different marks to create botanical drawings of flowers and in art – more you practice the better! It would be fantastic if you could find a flower or flowers that you love and create a painting/drawing! It could be watercolour, pencils, pens, poster paints – whatever

takes your fancy! We will be looking at the art work of: Emma Willaims and Iona Saunders. I would love to see the end results – feel free to share with a picture on dojo!

Learn the following KIRFS (suggest 2 minutes a day 5x a week). There will be a KIRFS quiz set at the end of each half term.

SCIENCE

- 1 There are 4 main parts to a plant: roots, stem, leaves and flowers.
- 2 Deciduous trees lose their leaves in the autumn.
- 3 Evergreen trees keep their leaves all year.

PSHE

- 1 The first line of my address and town is ...
- 2 My date of birth is...

For level 2 homework, the week runs from a Friday to a Wednesday.

Level 3 Homework (we would love you to have a go at these ongoing projects, artwork or research tasks and bring them in when ready)

Discovering nature in our backyard and local area!

I would love for you to create a nature journal exploring and learning all about the plants, animals and insects that live around us and what you have observed. Spend a little time each day or week and see what you can find! Collect leaves, flowers, stones etc and fill your journals with pictures and findings. You can watch the weather and spot the seasonal changes. You can present this however you like – collage, journal, video clips etc. I would love for you to bring them in, and we can do a group show and tell! I hope this activity is a great way to spend quality time outdoors and to help you discover love and curiosity for nature.

This task will be until the end of half term.

Remember the importance of staying SAFE online. ALWAYS check with a grown up before using any game, device or app. For further information about staying safe online, visit [this section](#) of our school website.

Healthy Body, Healthy Mind 'Homework'

At Kea CP School, we very much value the importance of extra-curricular activities, outdoor pursuits and family fun. We would love to hear about any activities you get up to outside of school! Please feel free to share any certificates, photos or write-ups of your adventures! It might be something you achieve at a club, or a picture of a lovely day spent at the beach! Anything is welcome- it may be that we share this on our whole class or school Dojo (consents permitting)!

Please email to secretary@kea.cornwall.sch.uk with 'Year 1 healthy body, healthy mind' in the subject bar.
