

# Fun Phonics Ideas

Use the sound(s) taught in today's online phonics and choose a different activity each day:

1 Write letters/ sounds/ words in chalk or on stones or on paper/card and place around your outdoor space. Play music/ tambourine. While the music was playing, they dance (run madly!) around. When the music stops, you call out a sound. Your child then races to find the letter/ letters/ words.

2 Nature letters: Making sounds out of different objects. You can use set 2 and 3 sounds from today's lesson eg **aw** and then use other objects to create a word eg **lawn**

3 Write sounds/ words/ sentences on paper shapes/ plates. Place them on the /floor face down. Kick/roll a ball towards one shape and the one it lands nearest to is turned over to reveal the sound/ word. If you read the word correctly , collect the shape if not replace it and have another go.

4 Sounds Hide and Seek- Write a selection of Set 2 and set 3 sounds on pieces of paper/card. Hide them around the house/garden/outdoor space. Say one of the sounds and your child has to go and find it, say the sound and write a word that contains that sound.

You can also try these activities with the Red Words that Y1 need to be able to read and spell.

5 How many different words can you think of containing the sound..... ? Name as many as you can in 30 seconds!

6 How many times can you write the sound..... in different colours in 1 minute?

**Get Creative and have fun!**
