GOVERNOR VISIT REPORT FORM

Governor name: Peter White

Date of visit: 12/2022

Focus of visit and name of lead staff member: Fleur McPherson

Visit focused on: The Eco-committee lunchtime club

Summary of activities:

- The club had been running for only a few weeks but already had prioritised 3 things it wanted to achieve.
- Discussion took place on the best next steps and the idea of setting up a suggestion box in each class was supported by all. This would allow ideas to be shared throughout the school and with parents.

Safeguarding:

- **No specific issues**

What have I learned as a result of my visit and how will I feed this back to the governing body?

- **This club as very well run by Fleur McPherson supported by Elena Leverton. They ensured everyone had an opportunity to put forward their ideas. All the children were very polite and always used hands up when wishing to speak. Because it comprises representatives from all classes, there was the potential for it to be dominated by older pupils and, while an older pupils did have the biggest input, this was sensitively handled by Fleur**

Discussion points for the governing body:

- **Feedback praise for how well Fleur was handling a group comprising all ages**
- **Record this as a positive step forward in engaging pupils and their parents in this important issue which is part of the School Development Plan**

Any other comments:

An opportunity for the relevant staff member to provide comments on your report.
